Our factory in Biberach

Our factory in Ochsenhausen

COMPANY PRESENTATION

soniflex is a business area of Cellofoam GmbH & Co. KG – especially tailored to the need of our private and trade customers.

Renowned as a leading specialist in lamination technology and technical acoustics, Cellofoam has been developing highquality noise control solutions in cooperation with industrial customers for more than 50 years and supplies well-known industries at home and abroad.

Now private and trade customers can also profit from our comprehensive experience and know-how: Cellofoam has started the soniflex line of business with the goal of providing the right solution for any noise problem within the shortest delay possible.
